

Please do not expand your service so that LPFM stations take priority over the current FM translator service such as K-Love which transmits on FM translators. K-Love is heard worldwide and does a majestic ministry to many people all over the world. We have very few choices for quality radio and music that restores people to wholeness and benefits anyone who takes the time to listen. It is one station that gives away and does not ask for anything but a relationship to Christ. For my life personally, I am able to find serenity in an often hectic day or time in my life. I am able to draw closer to who I am and who I am meant to be through the music and the programs broadcast 24 hours a day. K-Love is blessed and so are we, please find a way to continue the FM translator service uninterrupted .
